

Dineen Sales Ltd.

Fuel Savers/ Coal Savers

Ideal for reducing your coal/fuel usage

- Cut down on fuel usage
- Light smaller fires during summer
- No fire-cement required
- Free-standing on fire-grate
- Made from high temperature clay
- Suitable for permanent or temp use
- Side Fuel Saver - One size fits all
- Back bricks available in common sizes
- Hard wearing
- Totally Fire Resistant

DINEEN Coal Saver sides and backs are made from refractory fireclay. They are designed to reduce the amount of coal/fuel which is used in the fire. These Coal Savers have been fired to over 1050°C and will withstand any domestic fire and not disintegrate. They are ideal if you don't need a large fire and they can be used continuously or on a temporary basis as they are just freestanding on the fire-grate
